FOR IMMEDIATE RELEASE

TapRoot Systems, Inc. opens a new development facility in Dallas, Texas and adds Industry Veteran to Executive Staff

New office further expands one of the most experienced development teams in the Smartphone industry

RESEARCH TRIANGLE PARK, NC – April 4, 2007 – TapRoot Systems Inc., a leading provider of embedded software solutions and reference platforms for Smartphones announced today they are opening a new development office in Dallas, Texas and that Mike Linstrom has joined TapRoot's executive team as Vice President of Product Development. Mike will be heading up TapRoot's new development facilities and engineering team in Dallas, Texas.

The new facility will expand TapRoot's Smartphone engineering team, which will provide excellent coverage for a whole range of software products, engineering services and testing expertise for the enterprise marketplace and is part of TapRoot's worldwide effort to build development facilities in locations where there is great engineering talent.

Mike has over 22 years of software and product development experience and brings to TapRoot a unique approach to product creation, having spent the last four years in the emerging wireless IT space driving strategy and customer requirements. Prior to joining TapRoot, Mike headed up the Enterprise Solutions, Mobile Devices Business Unit for Nokia in Irving, Texas.

The new team will add to one of the most experienced Smartphone development teams in the industry and will work in Microsoft® Windows Mobile®, Linux™ Mobile, and Symbian® operating systems with a product focus that is aligned with TapRoot's on-going corporate strategy. The new team will concentrate on developing products and services that meet customer and carrier requirements by building on the expertise and track record the team has established at previous companies and positions. TapRoot will be making further news announcements over the coming quarters as corporate goals and plans are put to work and products delivered.

"We are excited to add new members to the TapRoot family" said Hugh Thomas, CEO at TapRoot Systems. "I am expecting some big contributions from this group in the coming quarters".
